

## AQUA MIX MAINTENANCE

**Purpose:** To provide routine ongoing maintenance for TerraTile and grout.

**Product recommendation:** Aqua Mix “Concentrated Stone & Tile Cleaner”.

**Procedure:**

1. Sweep or vacuum floor to remove loose surface debris.
2. Add two to three capfuls of cleaning concentrate to bucket of clean water.
3. Apply to floor using mop.
4. Allow to dwell on manageable area for a minimum of 2-3 minutes.
5. Agitate surface with mop, ring mop out with clean water.
6. Rinse with clean water, changing rinse water as needed.

**Note:** A soft to medium scrub brush may be substituted for surface agitation of cleaner if needed in high use areas.
